DR. AYER'S LUNG AND THROAT INSTITUTE.

No. 30 WEST FOURTH STREET.

The following letter is from one of our well known merchants. Whatever he indorses must be of sterling value. It is well worth resolns:

CINCINNATI, Februar: 13, 1859.

About a month ago I called at Dr. Ayer's "Threat and Lung Institute," 50 West Fourth Street, for treatment for Tensilitis and Chronic Inflammation of the Throat. The tonsils and uvula (or palate) were so much enlarged that there seemed to be but one course to pursue, and that was to cut them off; this I had been told by other physiciaus, who had also candidly fold me they could not cure me. Dr. Ayer made a careful examination and pronounced excision unnecessary, and prescribed Medicated Inhalaticus and topical applicatious, with general treatment, and the result is a print of Thursty I. The inflammation has been allayed, and the tousifs and palate reduced to their natural size and position. I now have no soreness or difficulty whatever of the throat, and Ferritary I ax Now PRINTETTA WILL.

I cordially comment Dr. Ayer as a skillful and competent physician in his speciality, and worthy of all confidence. His mois of treatment is rational, pleasant, and certainly in my case successful, and I have every reason to believe the Doctor is squally successful in all other cases while I have been under treatment at the Institute.

Supposed Arrest of George Harris, THE FORGER.

AT ANN ARBOR, MICHIGAN. Officers Despatched to Bring Him Back to the City.

FULL DEVELOPMENTS.

Through the vigilance of ex-officer Reany, the detective force, Mr. Geo. C. Sledge and Mr. Dunlevy, and other officers at the banking house of Mr. A. L. Mowry, the individual who perpetrated the late \$3,000 forgery has, in all probability been arrested. Mr. Sledge has been particularly active in ferreting out the mystery, and we presume the main credit of success belongs to him. Soon after the forgery had been committed, Mr. Sledge received information from his wife that a man answering precisely to the description of the forger had been boarding with her sister, in the upper part of the city, and had freqdently called to see her-

This man had formed the acquaintance in California of Mrs. Sledge's brother, and finding him here on his return a renewed intimacy sprung up between them, which resulted in the man, whose true name is Daniel Hazlitt going to board with the young man's sister as stated, and where Gessler, Mrs. Sledge's brother, was also boarding. About the time the forgery was perpetrated, Hazlitt was suddenly missing, and, on the day following, a man resembling him in every particular stopped a gentleman who was driving along the Hamilton Turnpike, near the city, and told him he would give him any reasonable sum to take him to Hamilton. The gentisman suspecting something wrong, refused. After this the same man is heard of buying a ticket at Hamilton for Indianapolis, and from Indianapolis he is finally traced to Ann Arbor, where he was arrested. A dispatch was reocived last night by Mayor Bishop, informing him of the arrest, and that although no money was found on his person, he had been seen

quite recently with a large amount.

Hazlitt is an Englishman about 36 or 35 years of age and of good address. It is said that he represented to Mrs. Sledge that he had large contracts for supplying pork to parties in California. He was seen on Third Street the day the forgery was committed. It is alleged also that he was engaged to be married to Mrs. Sledge's sister. Officer Barnard and a clerk of the Bank started last night by rail to Ann Arbor to bring him back to the city. They will stop at Columbus en route in order to get a requisition on the Governor of Michigan.

A Young girl named Sarah McNulty, charged with stealing a quantity of wearing apparel from Mrs. Matilda Collscott, was committed by Judge Lowe, yesterday, in default of \$500 bail. LAW REPORT. SUPERIOR COURT.

HABRAS CORPUS,—ALLEGED ILLEGAL DETENTION OF A PARTY CHARGES WITH ATTEMPTING TO ARD IN THE PACAPE OF A FUGITIVE SLAVE,—A writ of indees corpus having been issued to Thomas McLean, County Jailor, requiring him to produce in Court one Reuben Johnson, a colored man, whose custedly was alleged without authority of its, the hearing of the case came off yesterday afternoon before Judge Storer.

case came off yesterday afternoon before Judge Storer.

J Jolliffe appeared as Attorney for the petitioner, and Judge Matthews represented the other side.

Thomas McLean brought the party named in the writ lato Court. A few well dressed colored persons shortly after came in and took seats beside him.

The return of the officer was to the effect that he produced the body in Court, together with the came of caption and detention. The certamitment which accompanied the return, stated that Johnson was arrested on the affidavit of Thomas Freizier, about the 20th of May for the reason that he attempted to recuse, in the County of Muskingum, from the possession of Ezekiel T. Cox, Deputy Marshall of the U. S., the body of a certain negro fugitive slave, named Charles Jackson, the property of J. M. Jackson, of Virginia.

The first objection made by Mr. Johliffe was that the instrument purporting a commitment by the United States Commissioner Cochrane, at Zaneaville, had not the scal which the body of the paper signified it had,
Judge Storer—It seems to be the scal of the Commissioner.

Mr. J.—But the instrument numers to be under

had not the scal which the body of the paper signified it had,
Judge Storer—It seems to be the scal of the Commissioner,
Mr. J.—But the instrument purports to be under the scal of the United States.
Mr. Jo-But the instrument purports to be under the scal of the United States.
Judge Matthews—Turn to the law requiring a scal.
Mr. Jolliffe—I know of none; but the Commissioner seemed to think it was necessary.
Counsel then proceeded, also, to object that there was no proof that Mr. Cochrane was a Commissioner of the United States; but suppess he had a commission, what right had he to scal this man from Zanesville (where he might have given bail) to Hamilton County? The next point raised was that the Commissioner had no right to six in the case, as he was incapable of receiving the power attempted to be conferred on him by Congress; and that all the acts conferring jurisdiction on Commissioners under this Fugitive-slave law were void. Mr. J. urged that State Course were not bound to follow any but their own interpretation of the Constitution, except in doubtful cases, and that it was the duty of the issance fablis of the law to rescor that instrument from the rubbish that bad or ignorant men had thrown around it.

He wished to go out of the record to state the facts in relation to the offense charged against this man. A negro, a stranger to Johnson, was arrasted at Zanesville, and it being rumored that the Commissioner had discharged him, and that the Virgioians were carrying him away by force on the cars to take him out of the State, Johnson, with three or four others, followed, determined to rescue—but the others fell back, Johnson alone pressing forward, and though fired on and wonned din several places, never retreated, but was over powered. Did Napoleon at the bridge of Lodi exhibit greater bravery. If the present Emperor of France should exhibit as much bravery, it would seat him on his throne for the balance of his life, and make him reunowed over the world. And yet this poor negro, fo doing this brave act, w

script from the Circuit Court. As to the proof of his hand-writing, that could also be given, if it was not admitted.

Ar. Josifie: I'll not admit it; or help those great jack-asses over the act who sent the man away from their proof.

The Court said, that where the jailor says he holds the man under a proper commitment, it was incumbent on the other party to show it was not a genuine one. On the other questions, however, the Court wished to hear from Juige Matthews.

Judge Matthews then proceeded to say, that whonever a Court sitting on a habosa corpus, ascertains that the party seeking the benefit of the writ is in the custody of an officer of another Court, and charged with an officer of another Court, and charged with an officer of another Court, and charged with an officer common law, of common sense, of comity and of justice, a Judge would decline to hear anything further on the subject. As to that part of the argument of Mr. Jolliffe, relating to the want of power on the part of the Countissioner—the attempt to show that the Constitution was itself unacconstitutional—that the body of that instrument was repealed by one of its amendments, and that no man could conscientionally take an oath to support it, except to an abaurd sense, all he (Judge M.) had to say, was that he took issue with him entirely on the subject of his law, his philosophy and his religion as applied to this case. After amplifying somewhat, the counsel concluded by remarking that the Supreme Court of the United States had already disposed of all those questions.

The case was taken under advisement. It was stated Johnson was brought here for trisl before the U.S. Court.

J. N. Stockle vs. Mailon M. Wambaugh. Tried before Judge Hoadley, and a jury. Verdict for plaintiff for \$300.

James Reynolds vs. Hiram Clearwater and the City. An action, heard by Judge Storer, to recover the cost of bowlder-paving the Harrison Road from the Brighton House to Riddle strest. The defendant alleges that a small sum would have served for all the nocessary

and the taxes were therefore unreasonable and ex-cessive.

The Court was of opinion from the testimony, that the taxes were unreasonable and excessive, and ren-dered a judgment against Clearwater, in the propor-tion of 75 to 1,000, the assessed valuation, and against the City for the residue. The costs of Court to be taxed in the same proportion.

Dodd and Huston forfolaintiff; Ferguson and Long for Clearwater; Hayes and Disney for the City-Judge Spencer, in Room No. 3, heard motions.

HAMILTON COUNTY COURT. HABILTON COUNTY COURT.
Arguments were heard in Chancery cases.
Admitted to the Ear.—A. B. Regnier, Esq., of Internat, Ohio, one of the class at the late session of the Law School, was admitted to practise. Mr. R. having passed through the examinations unscathed, would have presented his credentials earlier, but from the fact that he had not attained his majority.

Cincinnati and Covington Bridge in

the Shade. A HIGH BRIDGE PROM ENGLAND TO FRANCE. The English papers have published some of the details of the plans, not long since submitted by Mr. Charles Boyd, of London, for uniting England and France by a gigantic tubular bridge across the channel between Dover and Cape Grinez, the nearest points opposite the coasts. In order to afford a passage to vessels of the largest size, the bridge would rest on one side of the cliffs of Cape Grinez, the French abutments being raised one hundred and fiftythree feet higher than the English to compensate for the difference of elevation of the cliffs.

The bridge would be supported by one hundred and ninety towers, at a distance of five hundred feet apart, each having a light to guide vessels at night, and an alarm-bell for a warning in the fogs. The greatest depth of the channel on the line proposed, is one hnndred and eighty-six feet. The bridge would have two or more railroads, which it is estimated could be traversed in twenty minutes. and it would be so built as to admit the light

of day-being lighted at night by gas. In order to prevent all fear of invasion, the projector proposes that each end of the bridge shall be commanded by a strong battery. The towers, which would be 100 feet in diameter, and 260 feet high, would rest on collossal bases, 390 feet square at the bottom, 150 feet square at the top, rising to a height of 40 feet above the water, formed of blocks of granite united by iron bars. The elevation of the tops of the towers would thus be 300 feet above the surface of the water.

GEORGE REEVES, a young sharper, who fleeced a countryman named Wm. Fester, from Coshocton County, out of \$95, at the Little Miami Railroad Depot, a sbort time since, bad an examination before the Police Court yesterday, and was held in bonds of \$800 to answer to the charge of grand larceny.

It appears that the bridge at Buffalors was

destroyed by the Piedmontese on returning from the resisting encounter with the Austrian troops on entering Piedmont.

Gen. Guylai, who commands the Austrian forces, issued a proclamation in which he said that the Piedmontese should be treated with the "greatest consideration, Austria appearing there solely to combat the turbulent party which attacks the rights of Austria as well as other Italian States, a party, feeble in num-bers, strong only by audacity, and which pro-vents the voice of the true Piedmontese people

from being heard. The Emperor of Austria had addressed an order of the day to Guylai's troops, which concludes thus:—" Soldiers of the sacred army, it is for you to carry to victory the unstained flags of Austria. March to combat with the blessing of God and the confidence of the Emperor."

LONDON, May 4.—Consols closed to-day at 90%@90% for money and account.

The Times' city article says:
"The improvement in the funds this morning, (Tuesday, 4th.) consequent upon the assurances of M. D'Israeli, of his entire confidence that no secret treaty existed between France and Russia, was less than ½ per cent., and the market at the close was still heavy."

Consols at first were quoted at 20½, and after ranging between 90@91, they loft off at 90% @90%. The domand for discount at the bank was unusually heavy, and a further advance in the rate on Thursday next was considered probable.

The English papers received by the Arago furnished the following additional particulars concerning the loss of the packet ship Pomona which was recently wrecked off Ballycarrigan.

New York, May 17.—The following is a continuation of the Steamer Vigo's news, which was obtained on the night of the 15th instant, off Cape Rase, but has been mysteriously detained by the Nova Scotia line.

St. Johns, N. F., May 16.—The summary of the Steamer Vigo's news was made up on board the Vigo, and hence is not as complete a synopsis as one prepared by the Liverpool Agent of the Associated Press would have been. This is unfortunately the case in regard to the report of the Liverpool Cotton markets, the papers from which the summary was made

containing nothing concerning it. The following is an abstract of the intelligence contained in the London and Liverpool papers up to the morning of the day on which the Vigo sailed, Friday the 6th inst.

Financial Affairs.

The Bank of England had increased its rate of discount to 4% per cent. The London News' city article of Thursday evening says that the alteration in the bank rate had no effect on the funds, which opened at the quotations of the previous day and remained at that rate till an hour after the announce was that rate was appaguently some fluctuations. ment. There was subsequently some fluctuation, but the closing prices were 1/2 better than yesterday. The rise in the rate of discount causes sales in English railway and other stocks, which have hitherto been held other stocks, which have nitherto been near on borrowed money. It thus happened that Consols improved. Several other classes of securities have given way. £64,000 were withdrawn from the bank to-day for exportation. £47,000 of American gold was also purchased for the Continent.

The Times' city article of Thursday even-ing says: "This was the settling day in funds, and, on the whole, has passed off well. No failures have been declared. Delays have been granted in all cases of doubt, to the end of the week. The bank will now make advances to customers on six months' bills at 1/2 per cent. The demand for discount at the advanced rate has been very active, both in the bank and in the open market. The joint stock banks have raised the allowance on deposit one per cent, the rates being now 3½ per cent. The advance of the bank rate to 4½ per cent, is merely the result of the movement of the public. There is really no very execution process. merely the result of the movement of the pub-lic. There is really no very excessive pressure for immediate grants on the part of the mercan-tile community, but the enormous outlay con-sequent on the general arming of Europe, ab-sorbs the specie and causes a continued increase in the value of the capital."

From the Kansas Gold Mines.

LEAVENWORTH, May 17.—Letters from Denver City, dated April 18th, represent great scarcity of provisions at the mines, and much suffering among the emigrants. Several deaths from starvation are reported, and the emigrants were arriving in a destitute condition. An abundance of provisions, however, was on the way from here and other points. Contradictory reports prevailed regarding the mining prospects.

The general tenor of the intelligence is not encouraging, but the unfavorable accounts are ascribed to destitute and discontented emiasorbed to destitute and discontented emi-granta. No remittances of dust or rich dis-coveries have been announced. Measures have been initiated to form a new State. Delegates are to meet at Denver City in June, to frame a

State Constitution.

The overland express, with two weeks' later news, will be due on Wednesday. Arrangements are progressing for a public demonstration on its arrival.
